

Remarks

Claims 9 - 16 are pending. Early favorable consideration is respectfully requested.

The specification has been amended to correct translational errors in the literal English translation, to conform the language, where appropriate, to American usage, to correct numerical notation, and to add new headings and subheadings recommended by the United States Patent and Trademark Office. A "Summary of Invention" paragraph based on the content of pages 3 - 8 and the amended sheet of claims has been added. No new matter is believed to have been introduced by any of these amendments.

The original claims have been cancelled and rewritten to reflect the content considered by the IPEA which found these claims to meet all PCT requirements of novelty, inventive step (non-obviousness), and industrial utility.

Respectfully submitted,

Otto Schneider et al.
